and that a sufficient opportunity had not been given for considering its terms, was hardly called for. The position of the Po Leung Kuk and the reasons which have led to the introduction of the bill were very clearly and fully set forth in the admirable report recently submitted to the Council by the Registrar General. This, however, is a matter which has nothing to do with the merits of the bill, and if Mr Whitehead had contented himsel with making his complaint as to want of information it would hardly in itself have called for notice. But he went a great deal beyond this. He made a statement which, if uncontroverted could not fail to have a most prejudicial effect on the bill and which contained an unjust, because entirely unfounded, imputation with regard to the Po Leung

Kuk and the promotors of the bill. . I

After making wanted, and initial letter for quality desired. the admission (which he was bound to make) that the Po Leuog Kuk has been doing good work for a number of years, and after having had an opportunity of seeing the bill by which it is proposed to place the Society on a footing which would enable it to do still better work and more of it. Mr Whitehead's exceedingly disparaging observation appeared, to say the least, very incongruous. We can only assume that he did not mean his description of the Society to be taken literally. An opportunity for making

the explanation which his remarks call for will be afforded when the bill comes before the Council for the second reading, and we have no doubt that the hon, member, with his habitual candour, 1.00 will state exactly what he meant. With regard to the bill itself, it requires little in the way of explanation, its Seal Capsule...... 10. 1.00 scope and objects being very clearly set forth in the text. If Mr Whitehead really thinks there is a dangerous element of secrecy in the society, here is a cheap and easy method of letting the light of

day in upon it. The purpose of incorporation is thus set out :-The corporation is erected for the purpose of establishing and maintain. affording temporary accommodation for persons who are friendless and aiding them to return to their homes. The above is, of course, precisely the kind of work in which the institution has been engaged since its foundation, and in which, as has been fully acknow-10 ledged, it has rendered valuable asmstince to the Government-work which the Government unaided could not accomplish even through a large and costly department. The management 0.40 of the Society is to be in the hands of an elective committee of members under the supervision of a permanent board of direction consisting of eight persons, including the Registr r General (who will be ex officio President) and the member of the Legislative Council representing the Chinese (who will be ex officio vice-President.) THE PAHANG RISING.

DISQUISTING DUMOURS. The intest information to hand from Poliang (soys the Straits Times of the Oth inst.) supports and suforces the native rumours that yesterday we published. It seems that affairs are in a most unsattled condition in that country and that the disaffection, amongst some classes of the Malays, is gradually spreading down to Pekan, the administrative capital of

Pahang, which presents a very remarkable appearance; all the stores are closed and barricaded, and in fact the whole place seems prepared to underge a siege, in case the ex Grang Kayah or any of his followers should fall upon the little township. This guarded domesnour was commenced on Sunday afternoon last when information was brought down from upcountry to the effect that the Panglima Muda Jempol intended raiding Pekan at an early date. Apparently the information was believed, for all the houses, offices, and stores in the place were barricaded; and two or three of the principal storekeepors in Pekan at once proceeded to. pack up as much of their goods as the circumstances would permit, and they and spirit of a free people—a movement that is morning. Official notification was sent from Pekan to the little colony at the

Kwala to be prepared for any emergency; and this was further confirmed by a guard of thirty men being sent down from Pekan to assist in guarding the Kwaln township. Further information confirms the news

that the Panglima Muda Jempolina made or has resolved to take, arms against the signature of Mr Horace J. Smith, of the Resident was privately warned of that probability a few weeks ago, but did not think fit to believe it. For the better defence of Pekan a trench has been cut round the gaol and some friendly Malay chiefs have enlisted a few Malays who promise to help to garrison it; but these have no proper arms and it is not known how for they may be trusted. The number of Sikh police at Pekan is very small. Mr Rodger is believed to be no longer with the Sultan in the up country district, and it is therefore considered that the Sultan has

excused himself from moving at present. presumably making an excuse of the Fasting Month. It is feared that the Sultan may desire to move himself further into the country and out of reach of the persistent appeals for assistance that have been made to him by the English Resident. There is a strong feeling among the Asiatio residents of Pekan that they ere being Conorally, it is urged that if the Government will not send soldiers or Sikh police from Singapore to defend the administrative capital of Puhang, H. E. ought certainly to send a gunboat or to cause an ermed Colonial steamer to lie off the Kuals. It should be noted that Mrs and Miss Rodger (the Resident's wife and daughter) are at present at Pokan; but it is expected, and hoped, that they will shortly leave.
